

# How professionals in South Africa coped with remote working

**87%**  
did not reduce  
their working hours

**82%**  
adopted **flexible start/finish hours** during their workdays

**46%**  
felt **even more satisfied**  
with their work compared to  
before the lockdown

More than  
**50%**  
felt **even more motivated** whilst  
remote working

**63%**  
said their **productivity increased**

**71%** An icon consisting of a row of 10 human figures. The first 7 figures are blue, and the last 3 are grey, representing 71% of the total.

think that **flexible working** will become  
more important than before
